Quick connection of the device:

1. Download the Client

Search for "Aqara Home" in the Apple App Store, Google Play, Xiaomi GetApps, Huawei App Gallery, or scan the following QR code to download the Aqara Home app.

2. Power on the device:

Please turn on the power supply of the Chime Repeater first, and install the battery into the Doorbell Main Module after the Chime Repeater is successfully added to the APP. At the same time, pay attention to the following points:

*The Doorbell Main Module and Chime Repeater have been paired before leaving the factory, and the user cannot untie them, so they cannot be used with other doorbells.

*Just connect the Chime Repeater to the network, and the Doorbell Main Module will automatically connect to the Chime Repeater after the Chime Repeater connects to the network.

*After the Chime Repeater is powered on and started for 10 minutes, the network connection is still not performed, then the device will enter the stop state where the white light is always on. If you want to perform the network connection again, please unplug the power supply and plug it in again, or press the function buttom for 10 seconds to reset the network. When the indicator light changes to the flashing yellow light, you can access the network again.

3. Add doorbell

Add the Doorbell to Aqara Home App

Hold your mobile device close to the repeater,open Aqara Home app, click "+"on the top right corner of the home page, select "Smart Video Doorbell G4", and follow the instructions of the app. After successful connection, the Chime Repeater status indicator will be a solid blue light.

If the Chime Repeater binding fails, please confirm whether the following reasons exist:

- The Chime Repeater only supports the Wi-Fi network of 2.4 GHz band, but does not support the Wi-Fi network of 5 GHz band.
- Unsupported special characters are entered in the Wi-Fi name or password, resulting in the failure to connect to the router. Please change them to commonly-used characters before trying again.
- Check whether the router has enabled the Wi-Fi anti-squatter setting; if so, it will result in the failure of the device to connect to the network.
- Check whether the router has enabled AP Isolation; if so, it will result in the failure of the phone to search the device within the local area network.

For more details about the product, please visit https://www.aqara.com/ or scan the QR code below to get the detailed electronic manual.

Under normal use of condition, this equipment should be kept a separation distance of at least 20cm between the antenna and the body of the user.

Wi-Fi Operation Frequency	2412-2472 MHz
Wi-Fi Maximum Output Power	≤ 20 dBm

EU Declaration of Conformity

Hereby, [Lumi United Technology Co., Ltd] declares that the radio equipment type [Smart Video Doorbell G4 SVD-C01/SVD-C03 with Chime Repeater, SVD-C02/SVD-C04] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: https://www.aqara.com/DoC/

UK Declaration of Conformity

Hereby, [Lumi United Technology Co., Ltd] declares that the radio equipment type [Smart Video Doorbell G4 SVD-C01/SVD-C03 with Chime Repeater, SVD-C02/SVD-C04] is in compliance with Directive 2017 (SI 2017 No. 1206, as amended by SI 2019 No. 696).

WEEE Disposal and Recycling Information

AAll products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

Symbol on the product or on its packaging indicates that this product may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

FCC ID: 2AKIT- SVDC01

FCC ID: 2AKIT- SVDC02

Federal Communications Commission (FCC) compliance statement:

1.This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

2.Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

RF Exposure statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IC NOTICE TO CANADIAN USERS

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is

subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
This Class B digital apparatus complies with Canadian ICES - 003.
This device complies with RSS - 247 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference.
This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

CAUTION 1

1. Risk of explosion if the battery is replaced by an incorrect type.
2. Dispose of used batteries according to the instructions.
3. Do not ingest battery, Chemical Burn Hazard.
4. This product contains battery. If the battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
5. Keep new and used batteries away from children.
6. If the battery compartment does not close securely, stop using the product and keep it away from children.
7. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.
8. Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
9. Leaving the battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
10. A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

CAUTION 2

Please select an adapter with a minimum output parameter of 5VDC 1A for use with the chime repeater of this product
